Digital Roadmap

The partnership is currently in the process of developing the content for our digital roadmap, a crucial component of the Skills4VET-app project. The content development phase will be completed by the end of August 2024, and subsequently the roadmap will be available in Greek, Italian and Spanish by the end of September. A piloting phase is scheduled to begin in late October 2024, allowing us to gather valuable feedback. Based on this feedback, we will make final adjustments by November 15, 2024. We look forward to these key milestones and will keep you updated on our progress.

Digital Report findings

On June 11-12, 2024, our project partners gathered in Larissa for a two-day meeting. Each partner brought along two representatives, making for a lively and engaging discussion. We talked about various managerial topics and took a close look at how our digital roadmap is coming along. It was a great chance to share ideas, solve problems together, and make sure we're all on the same page moving forward. This meeting really highlighted our teamwork and dedication to making this project a success.
